

**Name of the Software Curious Person:**

**Situation:**

general curiosity

**Description of situation at hand:**

Looking through curiosities to decide which services to direct the SCP to. Interested in the future of software. Putting the body in the same time as software.

**Directed to Services:**

Future Blobobservation Booth  
Agile Sun Salutation

**Total time available: 10 minutes**

**Estimated Time for service: 10-12 minutes**

**What would be a outcome:**

curiosity and knowledge.

**Conclusion**

He saw four things, there is a lot of humour it looks like it is serious, but it is a big critique, I like that

Comments on Agile Sun Salutation: traditional kine, but the doctor speaks (usually they speak about football, was very interesting, nice critic) Future Blobobservation: time machine

**Exit status:**

I HOPE

### Can this file be published: YES (if NO, print file says 'the file has been deleted')

**Services**

**Something In The Middle Maybe (SiTMM)**

**Rsoc - Relational software observatory Consultancy service**

**"What is it like to be an elevator?"**

**Interface Détournement**

**File therapy**

**Agile Sun Salutation**

**Continuous integration**

**Techno-galactic software walk-in clinic Reception**

**Intake**

**Future Blobobservation Booth**

**Retrospection**

**Refreshment**

**WTC-time**

**Flow of the chart - chart of the flow on demand!**
